

Parent Readiness Check

PARENT TO DO LIST

- ❑ Create a dedicated learning space for your students
- ❑ Your teachers will be sending home communication with learning activities for the week. We are all going to be getting used to new mode, so please be patient with us!
 - ❑ Some of this communication will come through the student accounts, so parents of K-6, please ask your student(s) for their email address and password so you can work together.
 - ❑ Some will be via email. We are asking teachers to establish that plan first and let you know the protocols for accessing the learning materials.

EXPECTATIONS

- Teachers and students will be learning about this new reality together. We will be doing our best to support instructional goals.
- We won't be offering 7 hours per day of learning, but we will be giving you supplemental resources, both online and offline to accompany what the teachers prepare.
- Learning will look different and we'll be figuring out ways to make it better for everyone each day.

TECH SUPPORT: help.lcusd.net

- Our tech support site includes many self-help resources in case of tech glitches.
- You can also submit a help request. We will get back to you during business hours on the same day.
- We also have a phone line to call: (818) 952-4283.
